SPECIES

Coho Salmon
(*Onocorhynchus Kisutch*)

PRESENTATION

Vacuum Sealed IVP

CONSERVATION

Frozen

Size

6 oz – 8 oz

QUALITY

Premium

FORM OF CONSUMPTION

Cooked - raw.

MOLDING AND PACKAGING

The product will enter the portioning machine as fillet for cutting, according to dimensions according to commercial requirements.

The portioned product must be individually vacuum sealed in a bell sealer using a lithographed bag. (Figure N ° 1).

The Traceability Information will be on a self-adhesive label.

The sealed and labeled product must be deposited on clean and dry plates with a plastic sheet. The molding of the portions should go with the skin towards the plate.

Once the cart is complete, it must be tagged and then moved to a tunnel aisle for freezing.
